Brewer

NEWCO

*The Term 20 to 1 evolved over many years in coffee circles. 20 ounces of water for 1 ounce of coffee is considered the Gold Cup Standard or correct coffee to water ratio. Our Brewer is designed to brew coffee with these standards in mind, controlling water temperature, water volume and water contact time. To brew a great cup of coffee.*

## *Brewing Made Easy*

**Touch Key Buttons** customized for coffee type or container type.

**Digital Time Display** lets you know when the coffee will be done.

**Coffee Ready Light** lets you know that you're ready to brew

**Brewer Signal** alerts when coffee is ready.

**Brewing Light** flashes to alert the user that the brewing is in process.

**Auto-Arm**, our temperature sentry: will only allow brewing to happen at the correct temperature.

**Power Bar** signals that brewer is "On".

**Hot Water Faucet** can deliver water at any time.

**Touch Key Button Kit** includes a variety of different labels that customize your brewer and make brewing accommodating and simple.

*The 20 to 1 brewer was designed to satisfy customer requests for a thermal dispenser brewer that would fit low clearance spaces yet still brew into most of our new thermals. These brewers incorporate our advanced solid state brewing and smart technology. While using our PDS Flow control valve and fitting it into a compact low-profile cabinet, this brewer can consistently produce a gourmet coffee shop quality cup of coffee.*

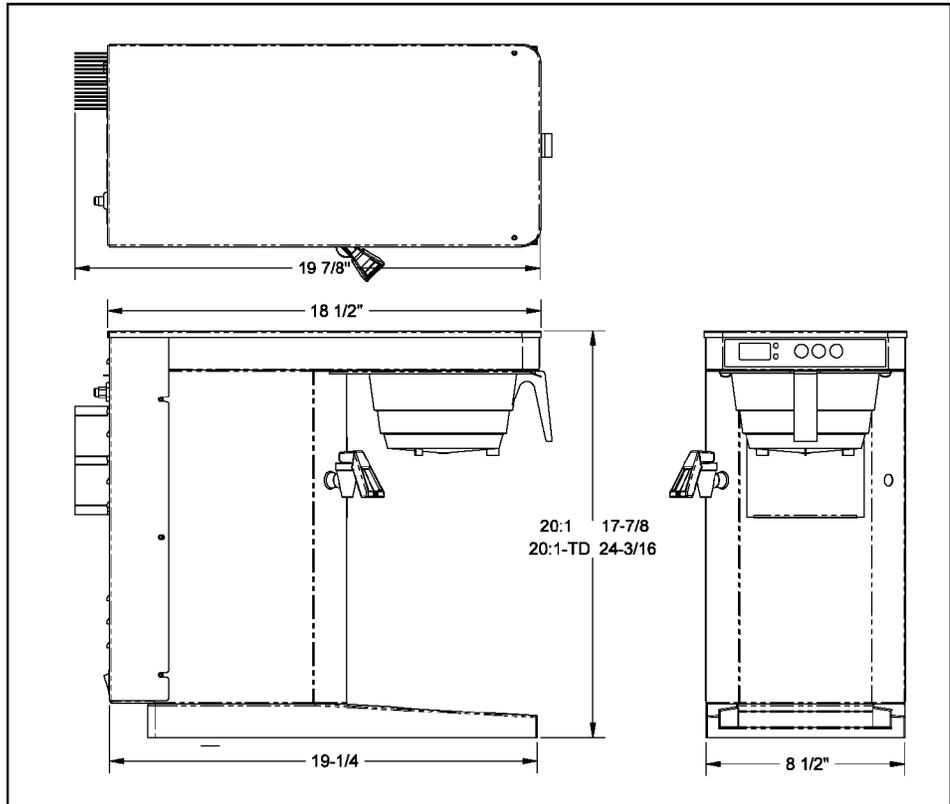

# 20 : 1 Brewer

**Easy Set-Up!** Set-up on the *20 to 1 Brewing* system is easy. Simply plumb in water supply, plug in the system's built in cord, and turn the machine on. The 20 to 1 System will sense a dry probe and begin filling the tank automatically. Once the water in the tank has reached the proper level, the element will automatically turn on and begin heating. In minutes, the correct brewing temperature will be reached, and you're ready to brew!

Label Kit  
Part # 119996

## 20:1 and 20:1 TD Dimensions

### Specifications 20 :1:

Shipping weight: 24lbs

Electrical:

	120V	240V
US	14.6 Amps	14.6 Amps
CA	11.7 Amps	14.6 Amps

### Specifications 20 :1 TD:

Shipping weight: 28lbs

Electrical:

	120V	240V
US	14.6 Amps	14.6 Amps
CA	11.7 Amps	14.6 Amps
